

Deepti Nalavade

Senior Technical Writer | Documentation Platform Engineer

deepti_nalavade@yahoo.com | 408-858-3021 | <https://www.linkedin.com/in/deeptinalavade>

Summary

Senior Technical Writer and former Senior Software Engineer with 15+ years of combined experience building developer infrastructure, Docs-as-Code platforms, CI/CD publishing pipelines, and AI-assisted documentation ecosystems. Within recent work experience, documentation efforts delivered a 94% Jira completion rate across 39 platform epics and saved 90% of developers' lookup time and effort.

Skills

- **Technical Writing and Architecture:** API Documentation (OpenAPI/Swagger, REST, GraphQL, SOAP), Developer Playbooks, Generative AI/LLM Docs, Runbooks, SOC 2 Compliance, Information Architecture.
- **Docs-as-Code and Publishing:** GitHub Pages, MkDocs, Jekyll, Markdown, Liquid, HTML, CSS, XML, AsciiDoc.
- **Tools:** Git CLI, GitHub, Maven, Jira, Confluence, Jenkins, Postman, cURL, Splunk, Cloudflare, AWS, Azure, Vim, IntelliJ, Cursor, draw.io, Lucidchart, Miro.
- **Programming:** Java, Spring Boot, Python, JavaScript, Node.js, JSON, YAML, XML, MySQL, Oracle.

Experience

Moody's Corporation | Senior Technical Writer (Contract) | 05/2024 – Present

A global financial risk assessment firm providing evaluations of the creditworthiness of borrowers, companies, and governments.

- Overcame manual 1:1 engineering onboarding overhead by building GitHub Pages sites for onboarding, configuration templates, and security. Established canonical configuration standards and saved developers' lookup time and effort by creating a

standardized Python template repository with extensive inline doc comments across YAML files for CI/CD, artifacts, build, deployment, and infrastructure tasks.

- Addressed the lack of standardized documentation for emerging LLM features by authoring developer integration guides for Model Context Protocol (MCP) services in AI IDEs. Built user guides to enable secure, compliant, and monetized AI-assisted workflows for platform components.
- Eliminated developer onboarding friction for client teams by creating documentation for platform components handling Cloudflare zone and WAF/CDN/DNS configurations.
- Resolved compliance gaps by creating a security suite consisting of security management guides, developer playbooks, vulnerability remediation runbooks, and SOC 2 evidence mappings for audit readiness.
- Authored and optimized 79+ Confluence pages (touching 110+ total pages), driving hundreds of cross-functional page views that streamlined workflows for developers, product managers, and DevOps engineers.

Yahoo, Inc. | Senior Software Engineer | 01/2019 – 05/2024

A digital media and technology company, focusing on online content, email services, and advertising.

- Eliminated developer time lost navigating fragmented legacy documentation by building Docs-as-Code workflows using GitHub Pages, MkDocs, and CI/CD automation, saving 90% of developers' lookup time and effort.
- Provided clear system setup instructions, user guides, architecture diagrams, API documentation, service runbooks, and Splunk dashboards to improve platform usage.
- Developed a news article tool leading to increased editorial accuracy and productivity.
- Led the migration of a Node.js-based service to a Java Spring Boot-based service, ensuring an error-free data transfer and minimal downtime.

Rally Health | Senior Software Engineer | 09/2018 – 01/2019

A digital health company providing personalized health and wellness solutions.

- Resolved healthcare account access hurdles by developing backend authorization workflows.

- Documented backend authentication services, improving developer adoption and integration.

Xoriant | Senior Software Engineer | 03/2016 – 09/2018

A product engineering, software development, and IT services company providing digital transformation solutions to businesses across various industries.

- Engineered a C++-to-Java migration of a backend service handling 250M daily requests, preserving backward compatibility and reliability while documenting architecture changes and migration best practices.
- Created security and compliance documentation for REST APIs handling Personally Identifiable Information (PII) and Payment Card Industry (PCI), ensuring regulatory compliance.

8x8, Inc. | Java Developer | 01/2015 – 03/2016

A cloud communications company providing Voice over IP, video conferencing, contact center, and enterprise communication solutions.

- Streamlined enterprise cloud phone feature adoption with API documentation and SOAP API specifications, accelerating integration timelines for enterprise customer deployments.

Serenova (formerly LiveOps) | Software Engineer | 04/2010 – 09/2014

A cloud-based contact center solutions company providing on-demand customer service and virtual call centers.

- Enhanced cloud contact center security and operational efficiency by engineering REST APIs, authentication mechanisms, and analytics tools while creating developer documentation that enabled data-driven backend performance tuning.

GitHub Projects, Portfolio, and Open-source Contributions

- Writing Portfolio with samples of API documentation, user guides, PRD, Information Architecture, FAQs, and other technical writing: <https://deeptin1.github.io/portfolio/>.
- GitHub link: <https://github.com/DeeptiN1>.

- Created [metadata definitions](#) to simplify the collection of thousands of project data entries, enabling users to understand the source or calculations of values being stored.
- [Created an AsciiDoc style guide](#) for adherence to standards and consistency in documentation.
- [Integrated autogenerated API documentation](#) with code samples on my website [using Swagger \(OpenAPI specification\) and Jekyll](#).
- Contributed to [NGINX open-source documentation](#) for product enhancement and user support.

Education and Certifications

- **M.S. in Computer Engineering** | Santa Clara University, CA
- **B.Eng. in Computer Engineering** | Savitribai Phule Pune University, India
- **AI Technical Writing Certification** | Technical Writer HQ, San Diego, CA
- **Technical Writing Certification** | Technical Writer HQ, San Diego, CA
- **MFA in Writing (In progress)** | Dominican University of California, San Rafael, CA
